Adoption of Solar Energy System. Plastic Free campus Make Campus Green and Clean. Reduce to use Vehicle in the Campus

7.2 – Best Practices

7.2.1 – Describe at least two institutional best practices

Best Practice Number - 1 Title: - Cleaning and Going Green. **Objective:** - The College engages itself in making the campus completely clean by creating awareness among the stakeholders to produce least waste and to dispose of waste in the dustbin only. This is by making them understand through counselling. We have decided to launch a campaign, "Go Green" and to create a friendly and conducive environment for the Students. **The Context:** - In this Context we have planned to plant saplings on every occasion of the college function. In the past we have planted saplings on the Republic Day and the Independence Day. Among those plants there were many plants of medicinal value and the result is that we have a beautiful herbarium inside the campus. **The Practice:** - College takes the following steps towards the achievement of its goal "Go Green". NSS wing of the students provide supports and through counselling take initiative in Going Green. On the World Environment Day which was observed on 5th June this year students took active part in planting saplings. The College Provides Financial supports to such initiatives and is committed to do so in the future also. **Evidence of Success:** - A large no of Trees standing inside the campus tell the tale of success of our mission "Go Green". There are more than Twenty Trees within a small expanse of area. There is a botanical Garden as well as a

small enclosure opposite Administrative block of the college which is full of Plants. Problems Encountered and Resources required: - We have encountered some problems in bringing the concept, Har Parisar, Hara Parisar (Each Premise, A Green Premise). There was problem of maintenance of the planted saplings because of the absence of the gardener but for last one year we have appointed a gardener through outsourcing and now the things are in proper war. The Greenness inside the campus is not only looked after properly but is also sustaining. Objective: - The aim is to provide a transparent efficient and fast disposal of works and can be monitored and analyzed by different stakeholders. The Context:- There are about 15 departments administered by Principal Office, Establishment Section, Account Section, Examination, Central Library, Proctorial Board, NSS and different committees and cells. The process of registration and admission, issue of books in library and examination work together is a tremendous and exhausting task to handle and maintain manually and because of huge shortage of Non- Teaching staff in the college the E-Administration has become demand of the hour. The Practice: - E-administration is being implemented. Office Management software is going to be designed to cover the various administrative and financial task of the college. Admission and registration Administration is to receive fee etc online through Internet Banking, Debit Card/Credit Card etc. Salary report is also generated without error in time. This has eased the workload on college administration and it has become effective. This gives a holistic solution where one can analyze office functioning and can determine the workload etc, and thus help in decision making. Problems Encountered and Resources required: - The College has developed and used it by indigenous resources. Most of the staff are still accustomed to old practice but they are adjusting to the changing scenario. To handle the software the services of software consultants have been hired to assist and train the staff. This move towards E-Administration has made the office administration smooth, responsible and efficient and has increased the faith of stakeholders in the system. work has been made online and students opting for one of the choices from a list of colleges during the admission process. Evidence of Success: - The biggest benefit of such a move is that the college has now a greater diversity in the intake of students. Students previously used to queue for the purchase of registration and admission forms now they can opt for the college of their choice from outside the campus.
